

THE PEOPLE'S BUDGET

A Roadmap for the Resistance

Americans are facing a pivotal moment: Republicans are preparing massive cuts to our public schools, affordable health care, clean air and water, and family-sustaining jobs. A serious alternative that protects our communities and our planet has never been more urgent.

The People's Budget: A Roadmap for the Resistance provides a practical, *progressive* vision for our country by investing in 21st century infrastructure and jobs, tackling inequality, making corporations pay their fair share, and strengthening essential public programs. *The People's Budget* will put millions of Americans back to work and will guarantee a strong economy for generations to come.

Public investment in 21st century infrastructure built with American parts and labor creates jobs that cannot be outsourced, while improving the health of our children and the environment. *The People's Budget* invests \$2 trillion in order to transform our fossil-fuel energy system, overburdened mass transit, deteriorating schools, lead-contaminated water systems, and crumbling roads and bridges. Through local hiring and livable wages, our infrastructure plan creates millions of dignified jobs for women and men of all backgrounds in both urban and rural America.

In order to make these bold, necessary investments in working families, we must rewrite the rules of a rigged economy that favors billionaires and big corporations. Our budget closes tax loopholes that corporations use to ship jobs overseas, and stops CEOs from receiving millions in tax-free bonuses. Our budget tackles inequality through fair tax rates for all Americans, leveling the playing field for working people.

Quality health care, child care, schools and retirement for everyone: these are the pillars of a democratic society. And yet in the world's richest country, these essentials are painfully out of reach for tens of millions of our fellow Americans. *The People's Budget* funds universal child care, increases access to health care, strengthens public schools and universities, provides for humane immigration reform, and expands Social Security. *The People's Budget* also lowers the price of prescription drugs so that families don't have to choose between paying for medicines or their groceries. *The People's Budget* ensures that Veterans Affairs will not be privatized and that veterans receive the quality care and robust benefits they were promised for their service to the country.

The Republican agenda drastically cuts federal protection for working families, the environment and our health care, while giving massive tax cuts to big corporations and bloating the military budget beyond belief. The People's Budget reinvests in American families, prioritizing funding for education, health care, jobs and clean air and water. The Congressional Progressive Caucus's ***People's Budget: A Roadmap for the Resistance*** puts political and economic power back in the hands of the people.
